The Rewards of Multiple-Asset-Class Investing
by Roger C. Gibson

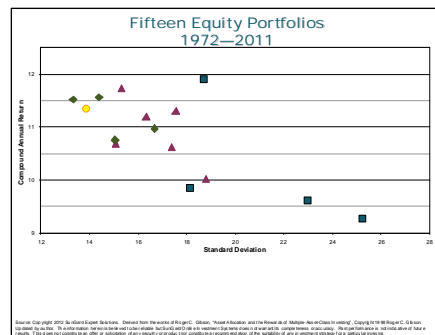

“Most investors do not understand, nor do they fully value, the benefits of portfolio diversification. Beneath the surface is an unspoken belief that diversification takes the fun out of investing and that the risk reduction is accompanied by mediocre returns. Surprisingly, this is not the case.” – Roger C. Gibson

SunGard now has available the full set of Roger Gibson Demonstration Slides that demonstrate that broad diversification not only reduces risk, it simultaneously improves long-term returns.
